

The pen is mightier than the sword...

...especially when it's made from recycled newspapers. Or how about a notebook made from discarded recipes and envelopes? Not impressed yet... How about a stapler that doesn't even require staples? Now that's just showing off.

DID YOU KNOW:

Organic tanners are great for those sensitive to other faux tans, including people that suffer from rashes, coughing, dizziness and fainting.

BEST FOOT FORWARD

Made from old tyres, parachutes and quilts, we think these Vivienne Westwood-esque heels are just about the best thing since eco toilet paper (see p218).

Shoes, \$400 (37-41), Terra Plana from Husk, (03) 9349 1822.

Pod Pureceuticals SPF 15 Liquid Tan, \$55, 1300 796 986.

HEY, NICE TAN...

When you think spray tan you think nasty smell, nasty chemicals and nasty sheets the next morning. But, lo and behold, there is an ecoternative. Nature's Energy in Sydney's Glebe, (02) 9660 8342, does an organic spray tan, \$42, which smells so fresh you'd swear they were spraying you with perfume instead. If you're more of an at-home kinda gal, try Pod Pureceuticals Liquid Tan, a nasty-free spray for the natural beauty in all of us.
